NEWS-HERALD
Estancia, N. M.

Entered as second class matter January 11, 1907, in the postoffice at Estancia, N. M., under the Act of Congress of March 3, 1907.

This office has a small supply of the "Ask About New Mexico" post cards, which will be furnished to people who will agree to inclose them in letters going to other states, as long as the supply lasts. These cards are furnished by the Immigration Bureau and are designed to get the Bureau in touch with people who are interested in the new state. The cards are addressed to the Bureau of Immigration, and on the reverse side is printed lines for five names and addresses, with the request that these spaces be filled and the card mailed. To all persons addresses of whom is sent in this manner the Bureau will mail free booklets and maps giving information about the new state. We also have a small supply of the red wafers.

Word comes all the way from Washington that, whereas the present brigade of federal office holders in this state were appointed in and for the Territory of New Mexico, and whereas the said Territory of New Mexico no longer exists, but in its place is the State of New Mexico, therefore the said federal office holders are not federal office holders within and for the State of New Mexico except by sufferance, and the comfortable cushioned chairs which they are at present occupying are held and considered by the appointing power to be vacant. This is said to mean the whole bunch, including postmasters. Wherefore it behooves the boys who want to succeed themselves to get busy real quick, because there are others who would like to have those jobs. It is, further said that none but dyed-in-the-wool Republicans need apply. Anyone who has been the least bit wobbly on his political pins is barred.

The artist, Mr. Karl Fleisher has just completed a new painting of the ruin of Cuara, an old mission seven miles north of Mountainair. The picture has been hung on the wall of the Archaeological society's assembly room with the paintings of the other old missions. Mr. Fleisher is now at work on portraits of Indians and hopes to portray the tribes from the various Indian pueblos in this state. The pictures he has finished show the difference in type of the inhabitants of San Ildefonso and Santo Domingo.—Santo Fe Eagle.

WHERE, OH WHERE?

We are in receipt of a letter from the Immigration Bureau which contains the following: "What has ever become of the Estancia Commercial Club? Is there no way of organizing a good Booster club over there?" Lack of information makes it impossible for us to answer this.

THE STATE
SHOULD HELP

A petition is being circulated here asking the legislature to make an appropriation to encourage the development of irrigation in the Estancia Valley.

We see no reason why the legislature should not make such an appropriation.

There is no question about the success of irrigation here, but capital is lacking to demonstrate it.

Once demonstrated on a scale sufficient to convince the most skeptical, capital would flow in, production and wealth would increase rapidly, and the state would soon be reimbursed by the increase in taxable property.

The Estancia Valley is a little off the main railroad arteries of the state and has not received the attention to which it is entitled by reason of its great natural advantages.

The people of New Mexico themselves have not fully appreciated the great resources of the Valley, and this applies to legislators and state officers as well as to the general public. It is not strange, therefore, that strangers from other states should also overlook it in a measure.

The writer has not the slightest doubt as to the great future in store for the Valley, and it will come whether the state helps or not; but it is just as true that some help from the state at this time would greatly hasten development.

WOMAN'S CLUB
MEETING

The Woman's club met on Friday afternoon, April 19th, at the home of Mrs. Rousseau, with nearly all the members present. Mrs. Holzinger, sister of Mr. Pickens, visited us. The ladies all spent a couple of hours embroidering and all kinds of fancy work, also exchanging ideas about different kinds of fancy work. In the absence of Mrs. Cowgill, our President, also Mrs. Van Stone the Vice President, Miss Simmons was appointed President pro tem. She called the meeting to order and each member answered to roll call with some current event which was discussed by members at some length. Several different suggestions were made concerning replenishing our Treasury, club taking up quilt making as one of the suggestions made. We feel that in trying to give the people a better lecture course than last year, that we must be up and doing in order to meet the responsibilities resting on us in this work. One of the members was given a

shower which was so much of a surprise to her that she seemed at a loss for words, which doesn't very often happen to a woman. At four o'clock our hostess assisted by Mrs. Terry, served a delicious chaffing dish luncheon also cake and coffee, which with social conversation was very much enjoyed by all present. At five o'clock we adjourned to meet in two weeks with Mrs. Terry.

REV. SUMMERS
JARRED

Six people were slightly injured yesterday afternoon at 5:55, at Broncho, a small station east of Mountainair, in a very peculiar accident. The cutoff train, bound west to Albuquerque, was "sawing by" a freight too long for the siding at the station, and the freight, which was headed westward, was backing as the passenger train ran slowly forward, when a car on the freight broke and turned over. The car turned toward the other track, and some part of it raked along the chair car of the passenger train, smashing several windows and one or two frames.

Some of the passengers were bruised and thrown about, but the most serious accident was a strained shoulder, sustained by Mrs. O. S. Larimer, of Philadelphia, who was bound for this city. Mrs. Larimer, however, was not sufficiently hurt to go to a hospital, and remained last night at the Alvarado.

Others injured were: Rev. B. F. Summers, of Mountainair, who sustained a strained side, and who left the train at Belen and returned to Mountainair last night instead of continuing his journey here; J. A. Smith, who was cut slightly about the face; H. R. Parson an attorney of Ft. Sumner; Dr. W. R. Loveless of Fort Sumner, and W. M. Scheer, who sustained cuts and bruises. The train continued to this city, losing but a small amount of time. Broncho is seventy-seven miles from here.—Albuquerque Journal.

No right to make entry under the Act of Feb. 19, 1909, can be acquired prior to the date that the land has been designated by the Secretary of the Interior as of the character of lands subject to entry under its provisions.

You will look a good while before you find a better medicine for coughs and colds than Chamberlain's Cough Remedy. It not only gives relief—it cures. Try it when you have a cough or cold, and you are certain to be pleased with the prompt cure which it will effect. For sale by all dealers.
